

Rocket® Audit & Analytics Services™

Mitigate risks with continuous analysis

Rocket® Audit & Analytics Services™ improve operational performance, strengthen internal controls, and help meet compliance requirements by automating business and audit reconciliation rules. Audit & Analytics extract useful business modeling information, analyze data, and enable dynamic visualization to ensure data integrity between systems and data sources.

Benefits/Features

Regulatory and governance audits compliance

Perform continuous audits to identify discrepancies and support compliance with financial and other regulations.

Enterprise-class scalability

Process enterprise-grade workloads with a robust, scalable platform.

Increased productivity with process automation

Eliminate labor-intensive, error-prone, manual reconciliation processes.

Low code processes for rapid time to value

Rapidly digitize business processes through ready-to-use templates and commands.

Data-driven insights

Turn data into actionable insights to mitigate risks, improve operational effectiveness and drive customer acquisition.

Speed and agility

Deploy instantly with Docker for high scalability in the cloud.

What our customers have to say

Audit & Analytics Services saves us well over 150 hours in monthly time savings and growing!"

A Large US Investment Management Company

With continuous data monitoring and analysis for rules-driven results you can:

Analyze and visualize data

Built-in data visualization with the flexibility to integrate with tools like Tableau and Qlik to visually analyze data.

Automate audit rules

Find and update inaccurate information to reduce costs and time associated with manual data-gathering tasks.

Define business rules

Employ contemporary low-code graphical UI to define, test, and deploy business rules.

Federate data sources

Connect, merge, and extract data through Web Services regardless of size, format, volume, or platform.

Drive data quality

Reformat, enrich, and validate data integrity using business rules-driven enforcement.

Modernize infrastructure deployment

Deploy applications quickly, smoothly, and securely with Docker.

Why partner with Rocket Software?

+85%

REDUCTION IN MANUAL DATA PREP TIME

100%

END-TO-END AUTOMATION

+65%

REDUCTION IN STATEMENT DELIVERY TIME

\$Ms

ANNUAL SAVINGS RELATED TO AUDIT PROCESS AUTOMATION

The future won't wait—modernize today.
