Rocket Software, Inc. Third-Party Subprocessors

Rocket Software uses a range of third party subprocessors to assist in connection with providing contracted services. These subprocessors provide hosted applications, customer support, implementation services, and incident resolution services. Subprocessors listed have access to personally identifiable data.

Any such subcontractors will be permitted to obtain personal data only to deliver the services Rocket Software has retained them to provide, subject to written Data Processing Addenda, and they are prohibited from using personal data for any other purpose. These subcontractors may provide services to one or more customers. Transfer of personal data from the European Economic Area to the other countries listed below will be subject to Rocket Software Group's Intercompany Framework Agreement incorporating the EU Standard Contractual Clauses.
