Rocket software

Decades of Value Moves to the Cloud

A modern development environment leverages decades of data with Rocket® Visual COBOL®

JURY SYSTEMS
INCORPORATED

CLIENT

Jury Systems Incorporated is focused on improving jury management for over 500 clients in North America, with an expanding international presence.

> " With **Visual COBOL**® we can support both solution versions easily, as they share the same code base. Any enhancements we make in the system are immediately reflected in both versions. This streamlines our development, ensures consistent high quality and gives our clients full deployment flexibility."
>
> **Mark Sheinbein**, President & CTO, **Jury Systems Incorporated**

CHALLENGE

Modernizing the jury experience

Jury Systems sought to **innovate beyond their established JURY+ Classic product** by developing a modern, Windows-based platform to enhance user experience and appeal to a broader client base.

- **User-friendly interface**
  The goal was a graphical interface that was intuitive for users.

- **Deployment options**
  The system required flexibility for various deployment scenarios.

- **Integration capabilities**
  The new solution needed to integrate with a relational database.

SOLUTION

Streamlining development with Rocket® Visual COBOL®

01 Shared environments
Both Windows® and browser-based solutions shared the same development environment.

02 Cloud-hosted model
An AWS® cloud option provided a hassle-free solution for clients, eliminating the need for infrastructure management.

03 Seamless transition
The intuitive web interface required minimal training and support for users.

04 Increased productivity
Users achieved transactions with fewer clicks, accelerating task completion and boosting overall efficiency.

RESULTS

Building foundations for future success

Streamlined development

A shared code base enhances collaboration and ensures project consistency.

Modernized platform

Clients get the latest features to stay innovative and current.

Future-proofed investment

Solution adapts to evolving needs, protecting long-term investments.

Rocket software

Modernization. **Without Disruption.**™
