

Textile Giant's Digital Transformation

Elevating leading textile company's performance with Rocket® Enterprise Server*

The Client

E. Miroglio is a rapidly expanding leader in textiles, operating seven manufacturing and office sites across Europe and Asia.

“ We leveraged **Rocket Enterprise Server** to deploy an efficient and stable x86-based platform, giving us full control over our production environment, even though we are based in different countries.”

Maurizio Chiavazza, System and Network Administrator, **E. Miroglio**

CHALLENGE

Existing system stalled progress

E. Miroglio, with a distributed workforce and heritage systems, **needed a solution for active software development and testing accessible from any location**. They sought a modern, flexible platform to streamline their operations and enhance productivity.

- **Manual batch processing**

About 5,000 daily batch jobs required manual assistance, slowing operations.

- **Limited flexibility**

Existing application environment was expensive to maintain and offered little room for innovation.

- **Lack of standardization**

The IT team aimed to standardize their environment with modern tools.

SOLUTION

Advancing operations with Rocket Enterprise Server

01 Accelerated transformation

Rocket Enterprise Server sped up the digital transformation to an alternate platform.

03 Simplified management

All UNIX shell scripts were converted to JCL, allowing the team to manage them easily.

02 Seamless platform migration

The solution enabled a move to a flexible x86-based Linux platform without any downtime.

04 Core application retention

The company reused business-critical core applications and data as part of its modernization journey.

RESULTS

Boosting performance and control

90% performance improvement

Some departments reported performance improvements up to 90%.

50% faster batch operations

Nightly batch operations are now fully automated and 50% faster.

50% infrastructure savings

The new platform is 50% more cost-effective to maintain and support.
