

Modernizing Insurance with Rocket® Enterprise Suite

Empower your team, delight policyholders, and lead the way forward.

Modernizing with Rocket® Enterprise Suite enables insurers to unlock new levels of efficiency, agility, and innovation. **Here's what's possible when you upgrade your core systems:**

- 01 Accelerate product launches**
Go from concept to market in weeks, not months.
- 02 Spend less on maintenance**
Shift your budget from system maintenance to driving innovation.
- 03 Elevate customer experience**
Deliver instant quotes, seamless digital claims, and always-on service.
- 04 Unlock real-time AI**
Enable instant risk assessment and dynamic pricing with real-time data.

What gets better with modernized workflows?

- 01 Claims intake & adjudication**
Impact: More straight-through processing, faster settlements, reduced manual review, and improved customer satisfaction with faster payouts.
- 02 Quote generation & rating**
Impact: Instant, digital-first quoting for agents and customers. Thousands of quotes processed at once, even for complex products across channels.
- 03 Policy configuration & sales**
Impact: Tailored product recommendations using internal and third-party data. Better cross-sell/upsell, and happier, more loyal customers
- 04 Risk assessment & underwriting**
Impact: Real-time eligibility and premium calculations powered by AI and external data, cutting application-to-policy time.
- 05 Customer notifications & engagements**
Impact: Automated multi-channel updates across email, SMS, portals, triggered by events like renewals, claims status, and payment reminders
- 06 Policy service & endorsements**
Impact: Customers and agents can update policies, request certificates, pay bills, or initiate claims from any device, reducing call volume and operational cost.
