Rocket CorVu Training Course
HyperVu/CorPortfolio

This class is designed for individuals responsible for building dashboards and deploying existing CorBusiness applications on the web via Rocket CorVu HyperVu software. It focuses on dashboard development and deployment of CorBusiness applications to the HyperVu server.

Topics Covered

- Introduction to HyperVu
- CorPortfolio formatting
- Dashboard development using CorPortfolio
- Use of hyperlinks
- Adding Rocket CorVu applications into CorPortfolio

- Deployment of dashboards via HyperVu
- Deploying Rocket CorVu applications via HyperVu
- Use of hyperlinks in Quick Reports
- HyperVu URL parameters
- Directory security

Duration

- One day

Prerequisites

- Completion of the 2-day CorBusiness Applications I course or equivalent Rocket CorVu experience. Additionally, attendees should have an understanding of basic web publishing and HTML concepts.
