

# Rocket® Mainstar® Catalog RecoveryPlus

Ensure z/OS® catalog health and build business resilience

The integrity of your IBM® z/OS® environment is critical, and Integrated Catalog Facility (ICF) catalogs play an essential role in managing z/OS data. When ICF catalogs fail, the impact can be severe. Application downtime can cost millions of dollars per hour. Rocket® Mainstar® Catalog RecoveryPlus (CR+) gives you the capabilities you need to maintain a healthy z/OS data environment and strengthen business resilience with secure, accessible data that enables your organization to adapt to constant change.

## Benefits/Features

### Manage catalogs while-in-use

Reorganize and repair catalogs in-place while they are open, without taking catalogs offline.

### Secure backup and recovery

Secure backup and recovery of catalogs which are critical components of z/OS to access data.

### Automate catalog recovery

Automate and improve recovery time from a catalog outage.

### Accelerate application availability

Sync catalogs and DASD data sets with speed and accuracy for rapid application availability and business resiliency.

### Diagnose catalog issues

Generate fixes to clean up or re-catalog un-cataloged data sets and orphaned data entries, and compare user catalog aliases with master catalogs.

### Maintain a healthier catalog infrastructure

Maximize data accessibility, minimize data loss, and maintain healthy catalog infrastructure.

# What our customers have to say

Rocket® Mainstar® Catalog RecoveryPlus has helped us save significant time, money, and resources. We are fully protected and are compliant with new regulatory requirements. Rocket again shows why they are the industry leaders with their products—their support is the best!"

VICE PRESIDENT OF INFORMATION SYSTEMS SERVICES,  
US regional health insurance provider

## With Rocket CR+ you can:

### Ease storage administration

Empower storage admins to perform tasks deemed cumbersome or otherwise impossible.

### Enable proactive efforts

Address preventable issues that could be detrimental to your business.

### Boost agility and productivity

Accelerate recovery times and improve administrator productivity.

### Streamline catalog management

Bring reliability, simplicity, and speed to catalog management.

### Improve cost savings

Reduce the financial impact of catalog outages by lowering the risk of failure.

### Simplify with a single solution

Improve z/OS data health with a single solution providing superior functionality for catalog management.

## Maintain a healthier catalog infrastructure with proactive, simplified management.

Single solution for every major catalog need.

Manage catalogs while-in-use and avoid downtime.

Easy to use ISPF interface provides a view of catalog status across the sysplex.

## The future won't wait—modernize today.
