

ASG-TMON® PERFORMANCE ANALYZER FOR UNIX & LINUX

For Visibility and Insight to Avoid Problems, Reduce Costs, and Do More With Less For Unix & Linux Platforms

OVERVIEW

ASG-TMON® PA for UNIX & Linux is a sophisticated yet easy-to-use solution for enterprises seeking to bring clarity to the management complexity of their UNIX and Linux systems. ASG-TMON® PA for UNIX & Linux provides automated, enterprise-wide collection, analysis, and reporting of performance metrics, and eliminates guesswork from capacity management and system troubleshooting.

ASG-TMON® PA for UNIX & Linux brings clarity to IT management complexity, reducing risk and expense while improving performance through sophisticated, uniform, disciplined enterprise-wide management of IT resources, regardless of platform. It strengthens organizational communication by providing clear, concise IT information on-demand and without human intervention, anywhere and anytime it's needed. The automation saves time and effort for IT staff, freeing it for higher-level planning and management work. And informed, timely analysis and enterprise-wide view enables IT to become a contributing partner in seeing, setting and achieving business goals and objectives.

BENEFITS

- High scalability allows central management of systems regardless of size, even if managing multiple systems with thousands of servers and workstations
- Compatible with AIX, AIX Power VM, HP-UX, Solaris, as well as SuSE and Red Hat, Mandrake Linux, zLinux
- Trending capabilities provides vital information required to take the guesswork out of IT purchasing decisions
- Easily integrates with existing performance agents
- Minimal impact on system resources
- Centralized control from one location, drastically reducing administrative overhead and human error
- Modeling option previews the impact of change down to the workload level, providing capital expenditure control, streamlining server consolidation projects, and preventing costly outages or acquisition of incorrect resources
- Automatically publishes reports to intranet or extranet
- Easily adapts to unique configurations and security issues

ASG-TMON® PA PORTAL - AN EXECUTIVE DASHBOARD

ASG-TMON® PA Portal provides cross-platform visibility to the entire enterprise IT infrastructure through a single, easy-to-use interface.

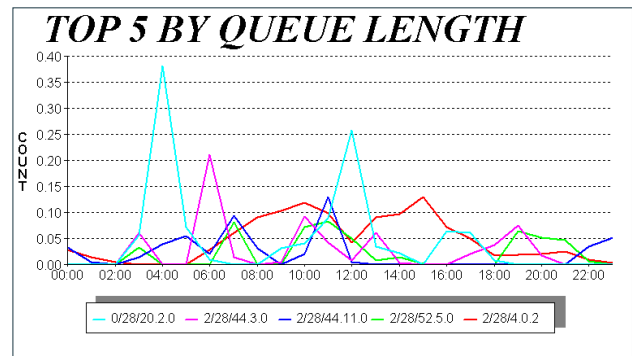

ASG-TMON® PA ANALYST

ASG-TMON® PA for UNIX & Linux includes ASG-TMON® PA Analyst, a powerful, Microsoft Windows-based analysis tool. ASG-TMON® PA Analyst is an easy to use desktop solution that simplifies access to charts and tools using an intuitive Navigator and Data Selector. Here is a sampling of just a few of ASG-TMON® PA Analyst's features:

- Chart Customization is simple using ASG-TMON® PA's SmartChart point and click feature. Change the charts to reflect specific needs. Add notations, change the colors, styles, etc.
- Powerful Scripting allows reporting and analysis to be automated eliminating expense and tedium
- Web-based reporting makes it easy to put reports on the intranet or extranet for on-demand access
- Data Organization - Keep data organized by system and period to efficiently handle months, weeks, and days
- Platform Integration - ASG-TMON® PA Analyst integrates all the platforms right in the same analysis tool. Learn it for one platform, learn it for all platforms.
- Desktop Integration - Results can be saved, printed or exported to spreadsheet or presentation packages with point and click ease

ASG-TMON® PA PORTAL BENEFITS

- High scalability allows central management of systems regardless of size, even if managing multiple systems with thousands of servers and workstations
- Compatible with AIX, HP-UX, Solaris, as well as SuSE, Red Hat, Mandrake Linux, and zLinux
- Trending capabilities provides vital information required to take the guesswork out of IT purchaurity issues
