

ASG-TMON® PERFORMANCE ANALYZER FOR WINDOWS®

Modeling Suite

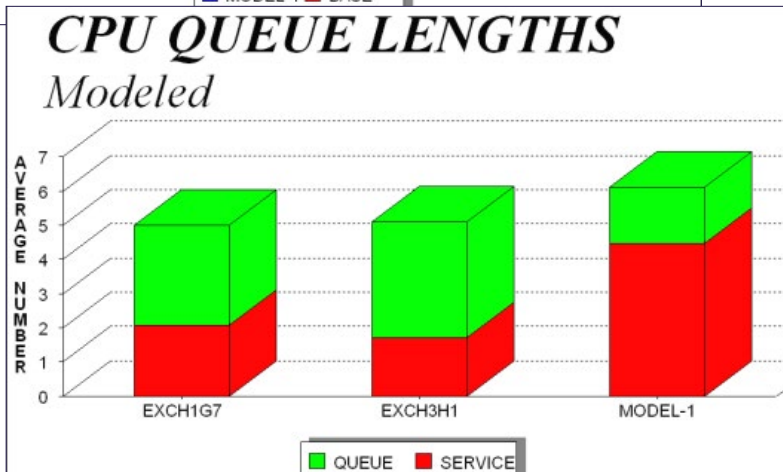

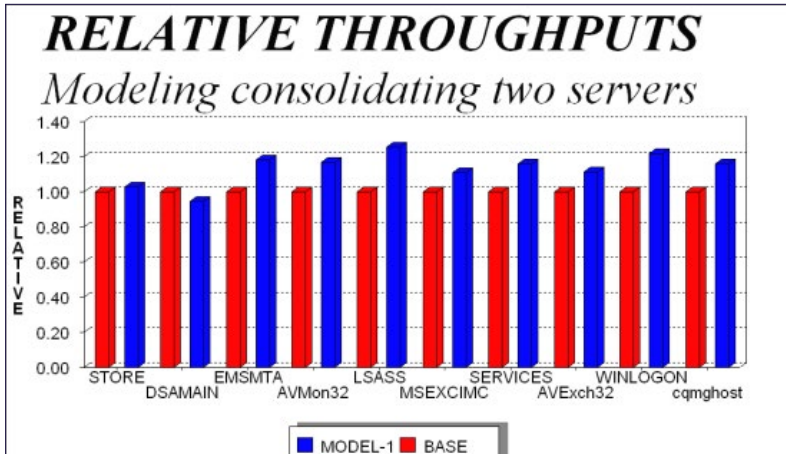

OVERVIEW

The ASG-TMON® PA for Windows® Modeling Suite enables organizations to see and understand the impact of change before implementation, helping to plan and execute consolidations and performance tuning while ensuring that financial, staff, and system resources are used efficiently. The Modeling Suite is an ASG-TMON® PA for Windows® option that contains two powerful components designed for workload modeling and capacity planning for single systems or enterprise-wide multiple systems.

The ASG-TMON® PA for Windows® Modeling Suite offers reduced risk through informed decision making. Complexity is turned into clarity for all levels of IT management through easy to understand reports and graphical representations. And imbedded intelligence enables IT professionals of varied skill levels to obtain targeted answers.

BENEFITS

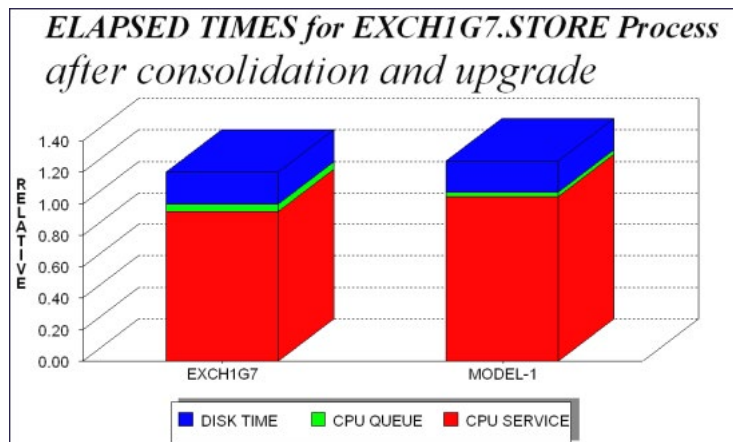

- Plan and execute server consolidations or ‘what if’ forecasting and know the result prior to risking service disruptions, wasting time, and wasting money
- Forecast, plan, and manage workload growth based on historical trends or anticipated business opportunities
- Discover, quantify, and present alternative options to meet goals and objectives
- Model the effects of new hardware, increased workload activity, or removed workloads
- Communicate quickly, clearly, and effortlessly
- Easy to learn and use—no difficult syntax, no coding of algorithms; the focus is on results not the path to getting there

ASG-TMON® PA ANALYST

ASG-TMON® PA for Windows® Modeling Suite includes ASG-TMON® PA Analyst, a powerful, Microsoft Windows-based analysis tool. ASG-TMON® PA Analyst is an easy to use desktop solution that simplifies access to charts and tools using an intuitive Navigator and Data Selector. Here is a sampling of just a few of ASG-TMON® PA Analyst's features:

- Chart Customization is simple using ASG-TMON® PA's SmartChart point and click feature. Change the charts to reflect specific needs. Add notations, change the colors, styles, etc.
- Powerful Scripting allows reporting and analysis to be automated, eliminating expense and tedium
- Web-based reporting makes it easy to put reports on the intranet or extranet for on-demand access
- Data Organization - Keep data organized by system and period to efficiently handle months, weeks, and days
- Platform Integration - ASG-TMON® PA Analyst integrates all the platforms right in the same analysis tool. Learn it for one platform, learn it for all platforms.
- Desktop Integration - Results can be saved, printed or exported to spreadsheet or presentation packages with point and click ease
