DISCOVER CA PRODUCT ALTERNATIVES WITH ASG TECHNOLOGIES

Level Up from Broadcom/CA

ASG OPERATIONS MANAGEMENT SOLUTIONS

ASG Operations Management solutions solve JCL management, multi-platform workload automation and DevOps value stream management challenges. With ASG's solutions, you can efficiently and effectively operate and manage error free, standardized and optimized JCL assets in a DevOps environment, and automate and orchestrate workloads at scale across your hybrid enterprise, from mainframe to cloud.

CA TECHNOLOGIES PRODUCT	ASG PRODUCT
CA 1 Tape Management	ASG-Zara
CA APCDOC Automated Job Documentation	ASG-INFO/XE
CA Automic	ASG-Zena, ASG-Enterprise Orchestrator
CA Critical Path Monitor	ASG-Zeke
CA JCLCheck Workload Automation	ASG-PRO/JCL
CA Jobtrac Job Management	ASG-Zeke
CA Opera	ASG-Zack
CA OPS/MVS	ASG-Zack
CA OPS / MVS Event Management & Automation	ASG-Zack
CA TLMS Tape Management	ASG-Zara
CA Workload Automation AE	ASG-Zeke, ASG-Zena, ASG-Enterprise Orchestrator
CA Workload Automation CA 7	ASG-Zeke, ASG-Zena, ASG-Zebb, ASG-Enterprise Orchestrator
CA Workload Automation DE	ASG-Zena, ASG-Enterprise Orchestrator
CA Workload Automation ESP Edition	ASG-Zeke, ASG-Zena, ASG-Enterprise Orchestrator
CA Workload Automation Restart	ASG-Zebb
Unicenter CA-FAQS/ASO (Automated Systems Operations) (for VSE)	ASG-Zack
Unicenter CA-FAQS/PCS (Production Control System) (for VSE)	ASG-Zeke

ASG PERFORMANCE MANAGEMENT

ASG Performance Management solutions provide comprehensive performance management and capacity monitoring of business-critical mainframe and distributed systems. Business value stream views of technology, including alerts and metrics, improve the understanding of system health and resource provisioning, enable infrastructure and operations teams to reduce mean time to repair (MTTR) and accelerate value delivery.

CA TECHNOLOGIES PRODUCT	ASG PRODUCT
CA Capacity Management	ASG-TMON PA
CA Database Management for Db2 for z/OS	ASG-TMON PA for DB2, ASG-TMON for DB2
CA Database Management for Db2 for z/OS	ASG-TMON SQL Analyzer
CA Detector for Db2	ASG-TMON for DB2
CA Insight for Db2	ASG-TMON for DB2
CA MICS Resource Management	ASG-TMON PA
CA NetMaster Network Mangement TCP/IP	ASG-TMON for TCP/IP
CA SYSVIEW Performance Management	ASG-TMON, ASG-TMON PA
CA Vantage Storage Resource Manager	ASG-TMON PA

ASG APPLICATIONS MANAGEMENT

ASG Applications Management solutions enable experienced and next-gen developers to easily manage mainframe COBOL code, including program analysis, code changes, testing and more. ASG's solutions enable you to control changes to configurations of software or documents throughout the software development life cycle.

CA TECHNOLOGIES PRODUCT	ASG PRODUCT
CA Endevor	ASG-Life Cycle Manager
CA Harvest Software Change Manager	ASG-Life Cycle Manager
CA Librarian	ASG-Life Cycle Manager
CA Mainframe Application Tuner	ASG-TriTune
CA PanAPT	ASG-Life Cycle Manager
CA Panvalet	ASG-Life Cycle Manager
CA Repository Exchange for COBOL	ASG-Enterprise Systems Workbench

ASG CONTENT SERVICES PLATFORM

ASG Mobius Content Services is a modular, open and REST API-led content services platform enabling firms to capture, manage, govern and distribute large volumes of information at scale. By harnessing innovative automation technologies, Mobius streamlines processes allowing organizations and their employees to focus on high-value tasks, providing exceptional customer service and governing sensitive information across the enterprise.

CA TECHNOLOGIES PRODUCT	ASG PRODUCT
CA Bundl	ASG–Mobius
CA Deliver	ASG–Mobius
CA Dispatch	ASG–Mobius
CA JMR	ASG–Mobius
CA Output Management Web Viewer	ASG–Mobius
CA SMR	ASG–Mobius
CA View	ASG–Mobius
