

# Rocket Software Field-Developed Solution (FDS) Catalog 2025

---

# Contents

03 Overview

03 Provision of FDS

04 Appendix A: FDS Catalog

---

# Overview

An FDS is a packaged, field-developed enhancement, utility or product add-on that:

- Is not available in the current release of the Generally Available (GA) product(s) with which it is associated and is therefore deemed “new functionality”;
- May be implemented more quickly than designing and building the required new functionality “from the ground up”; and,
- Is delivered “as is” and the terms of the Maintenance and Limited Warranty sections of the Rocket Software End User License Agreement do not apply.

This document contains the catalog of all Rocket Software Field-Developed Solutions (“FDS”).

Please notice that all FDS included in the catalog should not be considered General Available (G.A.).

*The availability of each FDS is subject to confirmation by a Rocket Software Solution Architect which will assess the Customer requirements and the target environment and will confirm the possibility to use it.*

For more information on Field-Developed Solutions, please contact your Rocket Software Services Sales Representative or visit <https://www.rocketsoftware.com/talk-to-an-expert>.

## Provision of FDS

All FDS' are billable and provided on a Subscription basis and they are subject to the FDS Agreement Terms and Conditions (T&Cs).

# Appendix A: FDS Catalog

FDS	Title	Description	Product
ADAPTPRO	DFCONV utility	DFCONV utility Profile File Adapter.	Rocket® Enterprise Server*
ADRDSU	Backup, restore, archiving and zip utility	MFADRDSU is an utility created to emulate certain functionality of the IBM® utility ADRDSSU. The primary functions are the ability to DUMP selected files to a backup location, RESTORE those files from the backup location, COPY files, and DELETE files.	Rocket Enterprise Server
BPXWDYN	IBM BPXWDYN text interface utility	IBM BPXWDYN text interface to dynamic allocation/output.	Rocket Enterprise Server
CATCHECK	Utility that builds delete JCL jobs for all catalog entries that do not have associated PC files	Utility that builds delete JCL jobs for all catalog entries that do not have associated PC files.	Rocket Enterprise Server
CICSCOUNTERS	CICS® named counter DFHNCTR call interface	Emulates the CICS named counter DFHNCTR call interface.	Rocket Enterprise Server
DataRecord	Java class for marshalling/unmarshaling byte arrays	Java class for marshalling/unmarshaling byte arrays.	Rocket Enterprise Server
DeployESI	Command line Enterprise Server Instance deployment utility	A command line possibility to deploy a complete Enterprise Server Instance.	Rocket Enterprise Server
DYNTRACE	Dynamic Tracing	Dynamic Tracing.	Rocket Enterprise Server
EBCDIC_FC	EBCDIC File Compare utility	EBCDIC File Compare utility.	Rocket Enterprise Server
FDSSORT	Unsupported SORT Functions	FDSSORT is a product add-on created to manage some of the syntax of IBM DFSORT/ICETOOL utility which are not supported by Enterprise Server.	Rocket Enterprise Server

FDS	Title	Description	Product
FileComparison	File comparison utility across diverse platforms and data formats. Inclusive of 80 hrs for training on the job	A powerful Field-Developed Solution (FDS) that simplifies and automates data comparison between source and target systems in migration projects. Designed to handle complex data formats and encodings (e.g., EBCDIC vs. ASCII), the File Comparison FDS allows seamless validation of migration accuracy. Key features include cross-platform file and database comparisons and customizable templates for various data sources like COBOL, VSAM, IMS segment and any RDBMS.	Rocket Enterprise Server
HYQSTCKC	STCK timestamp conversion module	Internal store clock (STCK) timestamp conversion module.	Rocket Enterprise Server
IGZEDT4	Current Date utility	Gets the current date.	Rocket Enterprise Server
MFAIFACE	Automate file processing and cataloging from mainframe via MFA	Utility to enhance and automate file processing and cataloging for GDGs, VSAM and FLAT files using Mainframe Access ("MFA"). Transmits data files from z/OS® to Windows using MFA for file download and transfer and automates EBCDIC to ASCII conversion, creates JCL for cataloging the files within the Enterprise Server (ES) environment, and transmits data from Windows to other UNIX or Windows server(s).	Rocket Enterprise Server
MFBPXBCH	BPXBATCH for Enterprise Server	BPXBATCH for Enterprise Server.	Rocket Enterprise Server
MFBSISEC	MFBSI Security User Exit + CAS command utility	MFBSI Security User Exit. LAUNCHCAS is included for launching CAS commands.	Rocket Enterprise Server
MFCDI	IBM Sterling Connect:Direct Integration utility	Provides for interfacing with the IBM Sterling Connect:Direct software using JCL executing within Enterprise Server.	Rocket Enterprise Server

FDS	Title	Description	Product
MFCFGHND	Configuration file access utility	Uniform access to a configuration file.	Rocket Enterprise Server
MFCFTUTL	CFTUTIL utility	Emulates the CFTUTIL utility which sends files via XFB.	Rocket Enterprise Server
MFCMBED	Catalog Maintenance by Expiration Date utility	Enterprise Server Catalog Maintenance by Expiration Date.	Rocket Enterprise Server
MFCMDLNE	Command Line command execution utility	Executing Linux shell & Windows commands from JCL.	Rocket Enterprise Server
MFCMSG	CICS Message Switching emulation	CICS Message Switching emulation.	Rocket Enterprise Server
MFCCommand	Asks for credentials on Enterprise Server commands interactively	Asks for credentials on Enterprise Server commands interactively.	Rocket Enterprise Server
MFDATE	Db2® to Oracle Date function	Db2 to Oracle Date function.	Rocket Enterprise Server
MFDB2BCP	Db2 INZUTILB, DSNTIAUL utilities for SQL Server (via BCP utility)	Limited emulation for the IBM Db2 utilities DSNTIAUL (up to ED 6.0) and INZUTILB on SQL Server (via bcp utility).	Rocket Enterprise Server
MFDB2HPU	Db2 INZUTILB High Performance Unload	Limited emulation for INZUTILB - Db2 High Performance Unload.	Rocket Enterprise Server
MFDB2USS	Db2 DSNTIAD, DSNTIAUL utilities for SQL Server	Limited emulation for the IBM Db2 utilities DSNTIAUL (up to ED 6.0) and DSNTIAD on SQL Server. For additional support on other IBM Db2 utilities check the "Mainframe Batch Database Tools (MBDT)".	Rocket Enterprise Server
MFDB2UTL	Db2 DSNTIAD, DSNTIAUL utilities for Db2 LUW	Limited emulation for the IBM Db2 utilities DSNTIAUL (up to ED 6.0) and DSNTIAD on Db2 LUW. For additional support on other IBM Db2 utilities check the "Mainframe Batch Database Tools (MBDT)".	Rocket Enterprise Server
MFDELD	Delete Datasets from JES Catalog	Cleanup JES catalog for DISP=NEW datasets in JCL.	Rocket Enterprise Server
MFDFHJUP	IBM DFHJUP utility	IBM DFHJUP processes CICS journal log stream.	Rocket Enterprise Server

FDS	Title	Description	Product
MFDSLST	ISPF 3.4 emulation	ISPF 3.4 emulation.	Rocket Enterprise Server
MFDSMGMT	Dataset Management	Dataset Management.	Rocket Enterprise Server
MFDSP	High performance in memory table lookup utility	Dataspace feature: high performance in-memory table lookup facility for read-only data.	Rocket Enterprise Server
MFDDYNAM	System dynamic allocation routine (IBM SVC99)	System dynamic allocation routine (IBM SVC99).	Rocket Enterprise Server
MFEE3SERVICES	IBM z/OS LE Callable services	IBM z/OS LE Callable services. (only CEE3INF service is supported).	Rocket Enterprise Server
MFEMSGW	TIBCO EMS integration utility	Integration of TIBCO EMS to Enterprise Server.	Rocket Enterprise Server
MFEEQOCL	IBM EQQOCL utility	IBM EQQOCL (allows some of the IBM Z® Workload Scheduler data) REXX Program via conman command.	Rocket Enterprise Server
MFESWLM	ES Work Load Management utility	ES Work Load Management.	Rocket Enterprise Server
MFEEZTI	Easytrieve control card execution utility for Linux, UNIX and Windows	Acts like a bridge between the Enterprise Server and Easytrieve, therefore allowing mainframe Easytrieve JCL to be executed under Enterprise Server for the most part without any modifications.	Rocket Enterprise Server
MFEEFPSRV	FTP client connection to Enterprise Server catalog utility	FTP Server for Rocket Enterprise Server catalog. With MFEEFPSRV is possible to connect via FTP client to an Enterprise Server catalog to execute any FTP activity.	Rocket Enterprise Server
MFEGIP	OSSY generator integration utility	Integration of OSSY generator into ED for Eclipse.	Rocket Enterprise Server
MFEEHTPGW	HTTP Gateway for external web services	The MFEEHTPGW FDS is a facility for Enterprise products while operating communication with external web services.	Rocket Enterprise Server
MFIBMWAIT	IBM “wait” module utility	Implementation of IBM’s “wait” modules CEE3DLYM, CEE3DLY and ILBOWAT0.	Rocket Enterprise Server

FDS	Title	Description	Product
MFIEBED	IBM IEBEDIT utility	IBM IEBEDIT (Edit Job Stream) Program.	Rocket Enterprise Server
MFIEHLST	IBM IEHLIST utility	IBM IEHLIST (List System Data) Program.	Rocket Enterprise Server
MFINSTRC	Copies JCL in-stream datasets	Copies JCL in-stream datasets.	Rocket Enterprise Server
MFPOUPD	IBM IPOUPDTE utility	IBM IPOUPDTE program for search/replace string in JCL.	Rocket Enterprise Server
MFJDFCONV	ES CLI utility interface for exporting/importing files from a JES Catalog to LS format and viceversa	ES CLI utility interface for exporting/importing files from a JES Catalog to LS format and viceversa (PS FB/VB only).	Rocket Enterprise Server
MFJESUTIL	JES Catalog and Spool Sub-system housekeeping	Perform common maintenance tasks on the JES Catalog and Spool Sub-system.	Rocket Enterprise Server
MFJFOCUS	JCL Wrapper for WebFOCUS	Processes standard Information Builders FOCUS JCL and parameter cards as they exist on the mainframe.	Rocket Enterprise Server
MFJKILSUB	JCL Exit Routine for killing spawned sub-processes on job cancellation.	User exit (MFJUXIT) to monitor JCL being user-cancelled, triggering spawned sub-process owned by SEP to be killed as well.	Rocket Enterprise Server
MFJSENDMAIL	Send Mail (JCL) via script	Provides support to send email from JCL (using a customized sendmail command into SYSTSIN card) via customized script.	Rocket Enterprise Server
MFJSTAT	Collects Job Statistics	Collects Job Statistics.	Rocket Enterprise Server
MFMVNCAT	Mainframe Express to Enterprise Developer Conversion Aid	Move and Catalog facility for importing new files automatically into the Enterprise Server catalog. The FDS also converts files from their inbound format to the desired format under Enterprise Server.	Rocket Enterprise Server
MFORAUNL	Oracle Table unload utility	Unload Oracle Table in Db2-like format.	Rocket Enterprise Server

FDS	Title	Description	Product
MFSAS	Secure FTP for Enterprise Server (Linux only)	Provides add-on support to the MFFTP functionality in Enterprise Server to allow the file transfer to be executed through OpenSSH/SFTP on a Linux platform. Support on Windows is integrated into ED since v7.	Rocket Enterprise Server
MFSFTP	Secure FTP for Enterprise Server	Provides add-on support to the MFFTP functionality in Enterprise Server to allow the file transfer to be executed through OpenSSH/SFTP on a Linux platform. Support on Windows is integrated into ED since v7.	Rocket Enterprise Server
MFSMTPSM	SMTP Send Mail	Provides an equivalent functional replacement for migration projects that utilize the SENDMAIL client feature of IBM SMTP for TCP/IP (part of IBM's Communications Server for z/OS).	Rocket Enterprise Server
MFSPLCPY	ES spool copy utility	ES spool copy utility.	Rocket Enterprise Server
MFSPOOL	Command line tool to query the Spool	Command line tool to query the Spool.	Rocket Enterprise Server
MFSYNCR0	A plugin replacement for SYNCOMMS (the SYNCHRO™ batch interface module from Macro 4)	A plugin replacement for SYNCOMMS (the SYNCHRO™ batch interface module from Macro 4).	Rocket Enterprise Server
MFTXT2PDF	JES Batch Text to PDF File Conversion	The MFTXT2PDF Field-Developed Solution ("FDS") has been created to provide Text to PDF File Conversion in Enterprise Server. MFTXT2PDF is designed to convert JES Batch text files to PDF files.	Rocket Enterprise Server
MFWINSCP	MFFTP User Exit for WinSCP	MFFTP User Exit for WinSCP.	Rocket Enterprise Server
MFXTMITIPSM	Send Mail Utility (JCL) via MFSMTPSM	Provides support for REXX procedure XMITIP (based on version 10.10) to send email from JCL (using MFSMTPSM FDS). Supports attachment zipping.	Rocket Enterprise Server

FDS	Title	Description	Product
MFZIP	PKZIP®/SecureZIP® for z/OS® Utility replacement	PKZIP®/SecureZIP® for z/OS® Utility replacement.	Rocket Enterprise Server
MTPBATCH	Launch CICS transactions, close/open CICS files, etc. from JCL	Launch CICS transactions, close/open CICS files, etc. from JCL.	Rocket Enterprise Server
OPCEXIT	User-Exit for MFBSIJCL to adjust OPC verbs	Supports Tivoli Workload Scheduler (“TWS” or “OPC”) job scheduler integration. Resolves variables within JCL and replaces the variables with their corresponding current values.	Rocket Enterprise Server
P2T	Production to Test transfer utility	Production to Test transfer utility.	Rocket Enterprise Server
PRTEXAMO	Printer Exit ANSI, Machine and Other	Printer Exit ANSI, Machine and Other.	Rocket Enterprise Server
RACF2LDAP	RACF to LDAP Conversion	RACF to LDAP Conversion.	Rocket Enterprise Server
SPOOLCOPY	Spool file copy utility	Copies every spool file generated to a location.	Rocket Enterprise Server
TRIGGER	Trigger generator for XDB to Db2 Replication: allows automation of triggers definitions.	Trigger generator for XDB to Db2 Replication: allows automation of triggers definitions.	Rocket Enterprise Server
TSOLNK	Dynamic allocation of a dataset in batch programs	Dynamic allocation of a dataset in batch programs.	Rocket Enterprise Server
XMITIP	Send Mail Utility (JCL)	Provides support for REXX procedure XMITIP (based on version 4.16) to send email from JCL (using sendmail system command, native on Linux/Unix, can be emulated on Windows).	Rocket Enterprise Server
XPSCOMM	OpCon Scheduler XPSCOMM utility replacement	Emulates the batch XPSCOMM utility provided by the OpCon Scheduler.	Rocket Enterprise Server

\*Formerly Micro Focus® products

## About Rocket Software

Rocket Software is the global technology leader in modernization and partner of choice that empowers the world's leading businesses on their modernization journeys, spanning core systems to the cloud. Trusted by over 12,500 customers and 750 partners, and with more than 3,000 global employees, Rocket Software enables customers to maximize their data, applications, and infrastructure to deliver critical services that power our modern world. Rocket Software is a privately held U.S. corporation headquartered in the Boston area with centers of excellence strategically located around the world. Rocket Software is a portfolio company of Bain Capital Private Equity. Follow Rocket Software on [LinkedIn](#) and [X](#).
