

## EMPOWER YOUR SCHEDULERS, OPERATORS AND ADMINISTRATORS WITH EXPERT TRAINING

ASG-JCL Tools Training Services

### OVERVIEW

ASG Professional Services provides flexible, effective training solutions that enable your IT staff to expertly tackle even the most challenging projects. With ASG education and training services, your staff will learn how to optimize the implementation and use of ASG Technologies' solutions across your enterprise, eliminating the need for spending on remedial learning activities.

### DELIVERING FLEXIBILITY, EXPERIENCE, AND RESULTS

ASG Technologies' Professional Services makes it is easy to choose the training that best satisfies the needs of your organization. We tailor training to suit your needs and make every effort to schedule classes at your convenience. If you need more than one week to meet all of your training requirements, we will schedule the same Education Consultant for all your sessions, whenever possible.

Our classes offer highly qualified instructors and extensive hands-on practice along with a variety of easy-to-use training materials, including handbooks, online help, and online resources. ASG Professional Services is committed to exceeding your expectations by providing the highest quality education and training services available in the IT industry.

### OFFERING EASY AND CONVENIENT SCHEDULING

Leveraging vast education and training resources and employing many Education Consultants, ASG accommodates all requests for scheduling based on the date requested, when sessions are available, and when they are confirmed. After your education and training request is scheduled and confirmed, you will receive a confirmation letter for your records.

### OFFERING ON-SITE TRAINING

As a highly valued ASG Technologies customer, you will enjoy flexible and convenient training classes at your own facility. To help us present a training event that is highly informative and supports all students in meeting the learning objectives, please view our tips below for requirements:

- A facility that enables students to be away from daily activities
- A writing board and markers
- Access to the environment containing the software solution
- Workstation access for students and for the instructor
- The capability to project from the instructor's workstation
- When on-site training is not feasible due a lack of facilities, ASG will work with you to find a suitable training location

### TRAINING INCLUDES:

- A set of training modules for each new administrator
- Hands-on lab exercise per module
- Training materials
- A certification of participation

## ASG-JOB/SCAN - TRAINING

The two-day ASG-JOB/SCAN Training Course provides a modular approach to learning the ASG-JOB/SCAN software product. Students learn the features and benefits, initialization and execution of the product, instruction about batch mode execution, and description of the ASG-JOB/SCAN reports. ASG provide exercises using Edit Macros, JCL Change, Reformatter, and the Standards Facility. In eight course modules students receive knowledge and insight into all aspects of ASG-JOB/SCAN, such as Validation, JCL Change, Reformatter, Standards, Administration, Interfaces and Customer-oriented Support.

## ASG-JCL/PREP - USER TRAINING

This four day course is designed for users, administrators, and programmers who use ASG-JCL/PREP. After this class, attendees will understand how to implement and use ASG-JCL/PREP for customizable standards enforcement, automation of change control processes, accurate analyses of operating environments, and best coding, debugging, and testing practices:

### BASIC TRAINING (DAYS 1&2)

- Product overview, use cases and project design, detailed walkthrough, option usage, customization, plus a high-level overview of ASG-JCL/PREP- specific coding structure

### ADVANCED TRAINING (DAYS 3&4)

- Callable routines, class projects for basic coding, detailed coding information, discussion and design of real projects

## ASG-JCL/PREP - ADVANCED USER WORKSHOP

The three day workshop for advanced users will give ASG-JCL/PREP users the specialized rules coding assistance needed to create and edit their own custom rules solutions and advise on current and future projects.

### ADVANTAGES OF ATTENDING

- Projects will be prioritized and planned into a structured workshop itinerary
- Attendees set rules-coding for projects before the session

- All project solutions will be pertinent to the most current release of ASG-JCL/PREP
- Emphasis will be placed on the use of Callable Routines, arrays, statements and functions
- Instruction will be given on the design of performance-efficient coding techniques
- Attendees will be able to discuss, critique, share, and otherwise benefit from peer involvement
- Participants will be able to take back code solutions and / or specifications requiring additional clarification or re-design

## ASG-PRO/JCL

This 3-day course provides a modular approach to learning the ASG-PRO/JCL software product and an introduction to the REXX Language. This course is comprised of 14 main modules, each with at least one hands-on lab exercise. The course provides insight to the features and benefits, initialization and execution of the product, instruction about batch mode execution, and description of the ASG-PRO/JCL reports. It also provides exercises using Edit Macros, ASG-PRO/JCL Change, Reformatter, and the Standards Facility. This course is intended to provide the basics for those individuals planning to write ASG-PRO/JCL JMP programs.

### ASG-PRO/JCL INTRODUCTION & CONCEPTS (DAY 1)

- Validation, Reformatter, Administration, Power User, ASG-PRO/JCL Interfaces, REXX Introduction

### ASG-PRO/JCL TRAINING CONTINUED (DAY 2)

- MP introduction, ASG-PRO/JCL standards, Global Changes

### PRO/JCL ADVANCED JMP (DAY 3)

- JMP Standards and Change Development, JMP hands-on lab, Customer Support Orientation, Global Change
