

## EFFICIENT IMPLEMENTATION WITH EXPERT CARE FROM ASG TECHNOLOGIES

ASG-JCLPREP Quick Start Implementation Service

### UNDERSTANDING ASG-JCLPREP

#### Analyzing and enforcing JCL Standards and Syntax

ASG-JCLPREP is a comprehensive JCL management solution that automates JCL changes, standards enforcement, conversion, and tuning, eliminating hours of exhausting programming for staff.

Flexible and easy to use, ASG-JCLPREP streamlines operations, improves your data center's productivity and reduces downtime in your production system by eliminating errors. ASG-JCLPREP is a dynamic JCL management tool that has the ability to perform fully customizable standards enforcement, JCL conversions, and corrections, as well as comprehensive reporting and optional reformatting. ASG-JCLPREP shields your organization against productivity losses by ensuring that job control management is performed accurately and according to pre-determined standards.

### IMPLEMENTING ASG-JCLPREP QUICKLY

By taking advantage of the extensive knowledge and experience of ASG Technologies' product experts and implementation service team, you can implement our solutions quickly and smoothly. ASG subject matter experts have been involved with a wide variety of Customer environments and make it their mission to ensure our Customers gain a clear understanding of the product during implementation. In this way, your team becomes self-sufficient and gains maximum benefits from all aspects of the solution.

### DEPLOY ASG WITH EXPERT GUIDANCE

The JCLPREP Quick Start Implementation Service offers fast and effective deployment of JCLPREP software, drawing on methodologies proven successful on multiple Customer sites. This integrated package of services is based on a Customer-focused 6 to 9-day approach that is outlined below:

- Installation of ASG-JCLPREP / Setup - 1 day
  - Basic product implementation and customization - 1 day
  - Administrator and End User training - 4 days
  - Additional Option: Advanced User Workshop - 3 days\*
- \*If Additional training is elected then the total days would be 9 days

### OBJECTIVES

- Installation and site configuration of JCLPREP
- Initial training for the JCLPREP Administrators and End Users
- Ensure optimum performance
- Ensure roll-out readiness

## DELIVERABLES

### INTRODUCTION / ANALYSIS

- Determine Customer requirements / objectives for automated JCL validation / change
- Determine general requirements for Standards Enforcement program
- Determine general requirements for JCL change
- Give some specific examples for Customer environment

### PRE-IMPLEMENTATION CUSTOMER RESPONSIBILITIES

- Load libraries from shipped tape
- Allocate product control file

### PRODUCT CUSTOMIZATION

- Modify run-time settings (setup Program Product Interfaces)
- Setup JCLPREP Internal security access
- Make product accessible in both batch and on-line modes
- Code a sample JOB CARD Standards Enforcement program (PGM) using up to two (2) Customer Standards
- Make Standards Enforcement PGM accessible for batch and on-line (include edit macros)
- Code sample PGM to support Customer's change requirements
- Exercise the reporting and on-line viewing functions
- Exercise the Standards Enforcement PGM and the PGM for JCL changes
- Assist in implementing the interface to JCLPREP within the existing JCL promotion process. If Customer implements a vendor-supplied promotion package in the future, such as PANAPT, Change Man, etc., ASG will advise Customer in integrating JCLPREP to that process.
- Implement the automated scheduler and security interfaces
- Implement interface to automated tape manager

### PRODUCT TRAINING

- Provide training to Customer personnel in the access and use of the product
- **Administrator and End User training:** This 4-day course is designed for users, administrators, and programmers who use ASG-JCLPREP. After this class, attendees will understand how to implement and use ASG-JCLPREP for customizable standards enforcement, automation of change control processes, accurate analyses of operating environments, and best coding, debugging, and testing practices.
- **Migration Workshop (Optional):** This 3-day workshop for advanced users will give ASG-JCLPREP users the specialized rules coding assistance needed to create and edit their own custom rules solutions and advise on current and future projects

### ENSURE OPTIMUM PERFORMANCE

- Ensure that batch and on-line response times are acceptable for Customer needs
- Adjust product run-time settings as needed

### ENSURE ROLL-OUT READINESS

- Exercise the entire JCL validation / promotion process

### ROLL-OUT TO THE ENTERPRISE

- Provide training to Customer personnel in the access and use of the product
- Ensure that all personnel have the appropriate access to the product
