

10 REASONS TO INTEGRATE ASG MOBIUS CONTENT SERVICES WITH MICROSOFT®

By connecting ASG Mobius Content Services (Mobius) with your Microsoft® ecosystem, you empower end users with exactly the right content - speeding productivity and meeting compliance standards.

| | | | |
|---|--|---|---|
|  | <p>01 Empower business users to quickly find what they're looking across the vast Microsoft ecosystem with federated search</p> |  | <p>06 Streamline collaboration in Teams and SharePoint while providing full visibility into business processes</p> |
|  | <p>02 Redact sensitive data with a single policy across the Microsoft suite including OneDrive and Sharepoint</p> |  | <p>07 Save new documents created in Microsoft Office directly into Mobius</p> |
|  | <p>03 Connect disparate information with a single source of truth</p> |  | <p>08 Drive business processes with real-time process visibility and automated exception handling</p> |
|  | <p>04 Support compliance with controlled access over enterprise information in a central repository with an audit trail</p> |  | <p>09 Enhance information flow for business agility</p> |
|  | <p>05 Boost productivity by accessing necessary information quickly and directly from Microsoft applications</p> |  | <p>10 Take advantage of continuous innovation from ASG and Microsoft</p> |
