

Rocket® Net Express and Server Express 5.1

(Formerly a Micro Focus product)

The Rocket Net Express and Server Express* product line is maintained exclusively for use by existing customers and is no longer generally available. The successor product line for existing users is Rocket Visual COBOL*.

This product line is maintained to support the needs of Rocket customers with applications already deployed using this product line. Technical support and engineering availability is still provided for the documented platform and 3rd party software list. For additional platform requirements, please refer to the Rocket Visual COBOL datasheet.

Key Benefits

Continued technical support and engineering availability against supported platforms.

Annual maintenance update.
