**Visual COBOL
Solutions Brochure**

*formerly Micro Focus products

Leveraging [Rocket] Visual COBOL we created a CI/CD and container pipeline approach in AWS to give us rapid deployment capability. Instead of two major releases each year, over the last 12 months we deployed 800 times."

Deputy Director
UK Government Department

When we rolled out the re-platformed application with Rocket Visual COBOL we actually saw an overall performance boost of more than 20 percent. Not only are our processes running faster, but we can scale out and run more concurrent processes."

Director of Architecture
Financial Corporation

When we first invested in COBOL decades ago, who would have thought that streaming music would even be a thing? But here we are, and it is testimony to the longevity of COBOL and the strategic direction of Rocket (Formerly Micro Focus) that we are successfully riding the digital transformation wave in our industry."
