

## EFFICIENT IMPLEMENTATION WITH EXPERT CARE FROM ASG TECHNOLOGIES

ASG-SmartTest Quick Start Implementation Service

### UNDERSTANDING ASG-SMARTTEST

#### z/OS Interactive Program Testing and Debugging

ASG-SmartTest is a comprehensive tool for testing and debugging in the z/OS environment. ASG-SmartTest provides language intelligence with automated testing and debugging facilities. It enables users to quickly pinpoint the source of any problem and access logic paths and data elements required for testing. ASG-SmartTest allows the user to explore the various execution paths of the program and identify other ways a similar problem could occur. This means that all instantiations of a problem are fixed in one test session, thereby rapidly increasing application quality and reducing future errors.

#### IMPLEMENTING ASG-SMARTTEST QUICKLY

By taking advantage of the extensive knowledge and experience of ASG Technologies product experts and implementation service team, you can implement our solutions quickly and smoothly. ASG subject matter experts have been involved with a wide variety of Customer environments and make it their mission to ensure our Customers gain a clear understanding of the product during implementation. In this way, your team becomes self-sufficient and gains maximum benefits from all aspects of the solution.

The ASG-SmartTest Quick Start Implementation Service is based on the use of ASG-Express-ICM to install and customize the product. ASG-Express-ICM is a feature available at no extra charge to ASG-SmartTest Customers. It provides a comprehensive and robust set of tools to assist both novices and experts to quickly and easily install, configure, and maintain the ASG-SmartTest product in the site's environment.

#### DEPLOY ASG WITH EXPERT GUIDANCE

The ASG-SmartTest Quick Start Implementation Service offers fast and effective deployment of ASG-SmartTest software, drawing on methodologies proven successful on multiple Customer sites. This integrated package of services is based on a Customer-focused 3-day approach that is outlined below:
