

Top 5 Reasons To Modernize Your Terminal Emulation Solution

1 Enable employees to be more productive and offer an improved customer experience

Empower your sales force with a secure solution that allows anyone on the floor to get the answers they need via mobile device—without leaving the customer's side.

In order to remain competitive, your workforce needs fast, easy access to vital host-based applications any time, and ideally from a device they have at hand—not a terminal located halfway across your facility.

Help your employees better serve customers by unchaining them from desktop terminals.

2 Streamline common tasks by going mobile

Use a tablet to monitor sales volume and quickly assess inventory to determine restocking priorities—without ever visiting a terminal.

3 Save time and boost operational productivity

Improve warehouse employee productivity with access to pick lists, inventory levels, bin restocking requests and more—anywhere, any time. Eliminate repeated trips to central terminals and give everyone real-time visibility into the work that needs doing.

4 Unchain your workforce by connecting any device, any time, anywhere

Today's workforce expects to engage on modern devices any time, anywhere. Rocket BlueZone Web enables BYOD policies and end-user platform diversity by granting host access from any device in a secure, web-based experience.

5 Reduce operational costs while maintaining security

PCs are expensive to buy, deploy and maintain. When their primary function is to provide host access, they may not be the most cost-effective option. Secure, zero-footprint browser access via Chromebooks, tablets, and other devices can be a much cheaper, lower-overhead alternative, and BlueZone Web delivers.

Introducing Rocket® BlueZone Web™

For organizations that need real-time access to enterprise applications anywhere, any time BlueZone Web offers efficient, browser-based access to host-based applications from any device, with zero footprint.

Centralized security and configuration simplifies administration, giving you agility and peace of mind. And, with Rocket's flexible licensing, you'll save money no matter how many users you have.

Mobilize your workforce to improve customer service and workforce efficiency today.
